Collected: 03/04/2020
Received: 03/05/2020
Reported: 03/05/2020

Accession #: CS-123456789

DIAGNOSIS:
RIGHT FOREARM -

BASAL CELL CARCINOMA, NODULAR

CLINICAL DATA:

Red and tan lesion – R/O BCC

GROSS DESCRIPTION:

Received in formalin labeled with the patient's name is a tan and red shave biopsy measuring 8mm x 6mm x 1mm. Specimen is submitted in 1 cassette, 2 pieces.

MICROSCOPIC DESCRIPTION:

The specimen consists of skin with nodular masses of basal neoplastic cells with small hyperchromatic nuclei, nuclear pleomorphism, scanty cytoplasm and peripheral palisading of nuclei typical of basal cell carcinoma.

Clay J. Cockerell, MD
